

# Finishing Up

## Final Reports

Ben Walt

UIUC

Fall 2022

- All Team Projects have been graded (For issues contact Ben)
- All CADLabs have been graded (For issues contact grader)
- Final Presentations have been graded (For issues contact Ben)
- LCA - I see that LCA 14 has not fully been graded. If you don't have a grade by the end of the week (12/10), please start asking (Grader and Rakib)
- LCA - Others should be graded (For issues contact Rakib)

Please check your grades for errors and let me know as soon as possible. Once the grades go to the professor, you will have to work with him to get things fixed.

- Submit your report as a single PDF file.
- Correct your mistakes from the presentation.
- Review the rubric carefully. I will be using it as a check list for your report.
- Make it obvious - e.g. have a section of report titled “Tolerance Analysis”
- Your report is a stand alone document. If I can't find something or it is hard to understand, I can't give full credit.
- The report should be written in complete sentences and paragraphs - not just bullet points.
- Make figures large and easy to read.
- There is no length requirement!

12/5 - 12/9

- No regular office hours
- Class 12/5 and 6 - No regular class. I will hold office hours in the lab during part of class. I will leave early if no one is present.
  - Monday 1-2PM
  - Monday 3-4PM
  - Tuesday 1-2PM
- Final Report is Due 12/9 at 11:59PM (Friday)
- Only the professor can grant you an extension.
